## **Koa Sports Play It Forward Campaign Scholarship**

Before non-profits like Koa organized sports leagues, there was a more organic way of "community organizing" -- kids went door to door to round up enough players for a game at the park. It didn't matter what street you lived on, how big your house was, or what your parents did for a living; every kid in the neighborhood was able to play.

We've made a few small additions to that model (uniforms, schedules, professional coaches), but our heart remains in the same place. We see ourselves as a neighborhood sports organization. An organization with neighborhood roots, neighborhood athletes, and neighborhood values. An organization that would never violate the most basic 'neighborhood right': the right to play.

## **Every Child Has The Right To Play**

That's the point of our Play It Forward Scholarship Fund: to give every athlete the opportunity to play. This means field hockey players, flag football aficionados, summer camp enthusiasts -- anyone. We believe any child who wants to play should be given the opportunity to. It's how things worked on the playground and how they'll continue to work for as long as we're around here at Koa Sports.

Please fill out and send the attached application to Koa Sports. The scholarship applications are read over and approved on a case by case basis by Koa Sports front office.

***Let's work together to achieve excellence and  
positivity on & off the field!***
