

Return to Play COVID Policy

Direct Exposure

(Koa athlete, employee, or a family member, in the household tests positive for COVID)

If there is direct exposure to COVID, an athlete must test negative and be quarantined for 10 days in order to return to play in Koa activities.

[Read more here](#) about the CDC's recommendation for quarantine duration.

Tertiary Exposure

(Koa athlete, employee, or a family member, was exposed to COVID)

Athlete may return to play in Koa activities. Koa will notify all the teammates and or campers of exposure.
